## Features

**Wide-Angle Lens**
The camera features a wide-angle lens that ensures everyone is captured on video, even those who are close to the screen.

**Digital Pan/Tilt/Zoom**
The camera has no moving parts, allowing Pan, Tilt, and Zoom functions to be adjusted smoothly, silently and instantly.

**Image Enhancement**
The camera automatically corrects white balance, color, and optical aberration. It reduces image noise through bias compensating spatio-temporal filtering with wide-area chroma filtering and adapts to poor lighting conditions with Dynamic Light Optimization.

**Real-Time Dewarping**
The camera's wide-angle image is dewarped and perspective corrected in real time, rendering a natural, true-to-life view.

**180° Auto-Flip**
The camera automatically provides the correct view when mounted upside down.
